

SUMMARY OF MEMBERSHIP BENEFITS

The global technical forum for large electric systems

empowering
networking
global know-how

EXPERTIS
COMPÉTENCE
PERÍCIA
SACHKENNTNIS
EXPERTISE

No matter what language you say it in, expertise is crucial.

The first port of call for power network know-how is Cigré. The global technical forum for large electric systems Cigré counts more than 12000 equivalent members in over 90 countries. This membership is composed of researchers, academics, engineers, technicians, suppliers, and other decision makers, and is supported by 2500 experts actively collaborating in a structured work programme.

In Australia, Cigré professionals are focused on sharing and developing the right skills for today but with an eye to the challenges of tomorrow. [For more>](#)

Global Know-how

from our worldwide pool of experts

With its global footprint in excess of 90 countries, Cigré offers unique international perspectives and unfettered access to a worldwide pool of experts and peers.

Cigré global know-how means:

- Unbiased global perspectives
- Apolitical forum with free knowledge exchange
- Members stay at the forefront and up with the latest issues
- Members can select the right innovations for Australia
- Access to thought leadership – network of the future

Networking

builds your collective intelligence

The engine room of the Cigré model is its approach to networking and sharing know-how. Cigré genuinely believes that the 'whole is greater than the sum of its parts' and it is this philosophy that builds the collective intelligence of our network and industry.

Our membership includes large electricity organisations, regulators, market operators, academia, manufacturers and consulting firms.

Cigré's network offers members:

- Diverse perspectives local and international
- Access to leading thinkers
- On call network of expert support

Empowering

Australia's power industry professionals

Global know-how is a valuable asset for any organisation. However, knowledge for knowledge's sake is not a solution to the challenges Australia's power industry is facing today or in the future. As a result, Cigré Australia's mission is to support our members in leveraging our global network with a local focus in mind.

The Australian members and industry benefits through:

- Global know-how applied to Australian challenges
- Enhanced solutions for Australian organisations and the wider community
- Access to practical real world experience
- Help mitigating risk and uncertainty
- Professional development
- Empowering leadership with solutions around the burning issues
- Preparing the industry for the future
- Authoritative resources and publications
